**Notice of Addendum to the  
LOCALIZED HEALTH IMPACTS REPORT  
for  
Selected Projects Awarded Funding Through the  
Alternative and Renewable Fuel and Vehicle Technology  
Program Under Solicitation PON-09-006  
including the  
Alameda-Contra Cost Transit District project  
(Contract 600-10-013  
Publication CEC-600-2010-005-AD**

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The *Localized Health Impacts Report for Selected Alternative and Renewable Fuel Infrastructure Awarded Funding Through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-09-006* was posted May 28, 2010, and the 30-day public comment period ended June 28, 2010.

The Energy Commission has published an addendum to the original Localized Health Impacts Report for new locations of two projects proposed for funding under the Program. The addendum was publicly available on May 27, 2011.

The addendum to the report includes a description of the project, criteria emissions data for the fuels associated with the project, demographic data for the area where the project will be located, and an analysis of the impacts of this project in communities with the most significant exposure to air contaminants or localized air contaminants.

This report is available free from the Energy Commission's website at:  
[www.energy.ca.gov/2010publications/CEC-600-2010-005/CEC-600-2010-005-AD.PDF](http://www.energy.ca.gov/2010publications/CEC-600-2010-005/CEC-600-2010-005-AD.PDF)

A print copy is available upon request made either in writing to the address below or by electronic mail to [[ab118@energy.state.ca.us](mailto:ab118@energy.state.ca.us)].

## **Background**

### **Solicitation PON-09-006**

Since the revised Notice of Proposed Award (NOPA) was posted (on January 11, 2011), two projects have changed locations of their natural gas fueling stations. For the USA Waste project, the original project proposed to install a LNG/LCNG fueling station in Sun Valley located near the Simi Valley landfill. However, based on recent developments and further assessment, funding will be redirected to two stations in different communities. For the South Coast Air Quality Management District (SCAQMD), the original project included 10 stations. The project sites have changed for six of the ten stations.

The projects evaluated in this addendum include:

- US Waste's "LNG/LCNG Refueling Stations for the USA Waste Project"
  - a. Corona Station
  - b. Baldwin Park Station
- SCAQMD's "Alternative and Renewable Fuel and Vehicle Technology Program"
  - a. Corona Station
  - b. Huntington Beach Station
  - c. Lake Arrowhead Station
  - d. Montebello Station
  - e. Otay-Mesa Station
  - f. Palm Springs Station

### **Contract 600-10-013**

The Energy Commission is also proposing to fund the Alameda-Contra Costa Transit District (AC Transit) through an interagency agreement with that local agency. The AC Transit project proposes to construct a hydrogen fueling station at AC Transit's existing bus yard. Although it is not funded under solicitation PON-09-006, AC Transit's project relates to alternative and renewable fuel infrastructure. Therefore, the Energy Commission has analyzed the localized health impacts of that project in this addendum as well.

## **Written Comments**

**Written comments on this addendum must be submitted by 5 p.m. on June 26, 2011. Written comments received after that date and time will not be considered.** Please include the publication number CEC-600-2010-005AD and indicate *Localized Health Impacts Report for Selected Projects Awarded Funding*

*Through the Alternative and Renewable Fuel and Vehicle Technology Program Under Solicitation PON-09-006 including the Alameda-Contra Cost Transit District project (Contract 600-10-013)* in the subject line or first paragraph of your comments. Please hand deliver or mail an **original copy** to:
